

# RESIDENTIAL, COMMERCIAL & SECURITY FILMS

## SUNLIGHT

SPECTRALLY-SELECTIVE CLEAR SOLAR PROTECTION

Ideal for stores, buildings and homeowners seeking maximum heat rejection while keeping the sun's light. Spectrally selective, Sunlight 70 is a clear alternative to dark reflective films. Optimized to reject IR across the entire spectrum, SUN70 delivers a rapid return-on-investment. The consummate choice for savvy consumers seeking luxury, performance, and dollar value.

## Palisade.

PREMIUM NANO CERAMIC SOLAR PROTECTION

For those who want the performance, durability and clarity of nano-ceramic film we have the Palisade series of films. Blends high visible light transmission, low reflectivity and superior heat rejection. Intended for discerning customers who want quality without compromise.

## NightScape.

DUAL REFLECTIVE, NON-SPUTTERED FILMS

The perfect balance of privacy, low interior reflectivity and high heat rejection makes NightScape the popular choice of homeowners and commercial property managers. NightScape delivers superior night vision views, great color and UV protection.

## ScenicView.

DUAL REFLECTIVE, NON-FADING FILMS

The solar stopping power of an all metal reflective film combined with the benefits provided by dual reflective films. With some of the highest heat rejections in the industry, ScenicView is the film of choice when you want to protect your home, office or business from the ravages of the sun. Comfort, performance and beauty - ScenicView. Also available in an Exterior version.

## DaylightNatural.

NEUTRAL, NON-FADING SPUTTERED FILMS

Low reflectivity with a soft, neutral color that blends in well with any interior décor. These films improve and enhance your views to beautify your home, office or store. A solid performer, the DaylightNatural Series offers high heat rejection, durability and good looks - it's one of our most popular solar control films. DaylightNatural is also available in an Exterior version.

## Sunset Bronze.

COPPER, NON-FADING SPUTTERED FILMS

Sunset Bronze films deliver exceptional solar protection with a warm, copper hue to enhance the appearance of a home as well as commercial buildings. These classic long-life metalized films are highly durable and very safe for dual pane windows.

## Solar Silver.

SILVER, NON-FADING METALLIZED FILMS

The best choice for both commercial and residential customers looking for the maximum bang-for-the-buck when it comes to reducing heat and glare. Delivers extremely high heat rejection, privacy and glare reduction without sacrificing performance or quality. Solar Silver is also available in an Exterior version.

## Specialty Series

SPECIAL APPLICATION FILMS

MBL (Blue), MGN (Green) & MGD (Gold)

Our designer series offers striking reflective bright colors in blue, green or gold to transform and renew any building's facade.

UV Clear—The ultimate in covert UV protection that won't change the look of your glass.

White Frost\*—A semi-transparent decorative film designed for privacy, interior design and light diffusion applications.

Blackout—Opaque black film with an industry leading hard-coat for increased durability.

\* White Frost does not have a recommendation from The Skin Cancer Foundation.

## Trident.

SAFETY & SECURITY FILMS

Our Trident series offers you a broad choice of protection levels to safeguard glass from threats ranging from severe environmental disasters to forced entry to terrorist acts. Available in clear and selected tinted versions.

## DEFENDOR.

CLEAR ANTI-GRAFFITI FILMS

Designed to combat the ever growing vandalism problem. This clear, "peel and replace" sacrificial film comes in two thicknesses to suit a variety of protective needs (4 mil and 6 mil.) Defendor is tough enough to prevent window damage from acid etching, scratching and painting.

All Johnson Window Films are protected by CST<sup>™</sup> Scratch Resistant Hardcoat. Solar control films on clear glass reject 99%\* or more of harmful UV rays.

The Skin Cancer Foundation recommends this product as an effective UV protectant.
